

Bleu et Blanc collection.

Bergamot Lavender

Herbaceous wild bergamot, blue-hued lavender, and invigorating eucalyptus take center stage in our cool, clean Bergamot Lavender fragrance. To that wonderfully aromatic mélange, we've added the fresh green scent of armoise, the lush perfumes of muguet or "lily of the valley" and vetiver, spicy clove, a subtle touch of sweet vanilla and tonka bean, plus a kiss of warm musk.

Bleu Ginger

The blue and white ginger jars that inspired this collection are steeped in centuries of Chinese history, when they were used as vessels to store and export valuable spices and precious commodities before becoming prized around the world. We pay homage with Bleu Ginger, which begins with the scent of florid tropical ginger blossom and lively pops of tart lemon and neroli. A flowering assortment of white jasmine, lily, violet and lilac lend opulent layers and complexity, while a splash of sweet vanilla bean completes this ambitious blend.

Bleu Willow

"Willow pattern" ware, with its distinct blue under-glaze, has been the basis of china creations since 1780, its pattern depicting the story of ardent Chinese lovers meeting clandestinely beneath rare fruit and willow trees before eloping to a romantic island paradise. Bleu Willow ponders the scent of that secret grove of trees with a combination of greenery and fresh air, sandalwood and cedar, a citrusy duo of bergamot and orange, soft blossoms of jasmine and lily of the valley, and a sensual touch of musks, clove, patchouli and amber.

Delphinium

Our ode to the regal, deep blue Delphinium found in storybook cottage gardens is an elegant bouquet of flowers topped with a playful collection of zesty scents. The centerpiece is an array of honeyed orange flowers, a seductive trio of white florals – jasmine, tuberose and lily of the valley – and a romantic arrangement of yellow roses, cyclamen and bright heliotrope. Finally the vibrant pièce de résistance, a citrusy combination of sweet orange and bitter orange extracts, petitgrain and neroli.

Bleu et Blanc collection.

French Blossom

French Blossom was inspired by the spectacular Jardin des Plantes in Paris, which has featured thousands of botanicals from around the world since the reign of Louis XIII. The sultry perfume of jasmine petals is layered with soft white cashmere blossoms and the sweet mimosa flowers of Provence, with a rich ribbon of vanilla and earthy musk to tie all the elements into a serene floral bouquet.

White Coral

The blue and violet blossoms of French lavender and wild sage provide sweeping landscapes and perfumed air throughout the South of France. In White Coral, those familiar notes are layered with briny seamoss to capture the scent of the region, from the rolling hills of Provence to the beaches of the Côte d'Azur. This combination is complemented with a blooming trio of white floral, cyclamen, and lily, a touch of crisp evergreen fir, and intoxicating sandalwood and vetiver.

White Patchouli

18th century Chinese silk traders transported patchouli to the Middle East, Napoleon brought it to Europe alongside luxury goods, Queen Victoria lined her linen chests with it, and master perfumers' creations popularized it. Our White Patchouli balances that deep, woody essence with the floral aroma of geranium and heliotrope, sparkling citron, an earthy trio of oakmoss, clove bud and cinnamon leaf, and a final velvety dash of sandalwood and sweet vanilla.
